- ✔ **No hardware cost, no installation costs, no maintenance**
- ✔ **Automatically generates on-site expenses, time sheet and mileage reports**
- ✔ **Easy-to-use and set-up – no training required**

"I can't overstate the benefits of Romex. We're saving fuel, planning journeys better and the management information it provides is helping us run a leaner business. Knowing precisely where our people are has enabled us to give customers a better service and that's giving us a real advantage over our competitors."

Mike Ambrose, Managing Director, Car Wash UK Ltd.

rome 
WITH YOU ALL THE WAY

Ensure your mobile workforce are efficient, supported, engaged and safe. Romex from BT Engage IT will help you:

- *improve company efficiency*
- *achieve significant savings at nominal cost*
- *run a well organised and supported team*
- *excel in customer service and win new business*
- *comply with legislation*

The Romex Advantage

Romex from BT Engage IT is the easy way to effectively manage your mobile workforce. Using the latest Smartphone and GPS technology in conjunction with Google Maps, Romex delivers a comprehensive real-time, highly accurate interface. Romex **TeamFix** will feed you vital information, from speed monitoring to pinpoint location mapping, which helps you best direct your team and achieve measurable savings on fuel and service charges.

A vital tool in customer service, Romex will identify your nearest resource to customer locations and flag up alerts upon arrival and departure from customer sites via e-mail or SMS. This also ensures you are complying with your duty of care obligation for your staff.

Any business with a mobile workforce will love Romex – whether you run a fleet of couriers, a remote sales team or service engineers, call us today to start enjoying the benefits of Romex. With no hardware cost, no installation fees and no maintenance charges the road ahead has never looked clearer.
